

NORTH AMERICAN SOCIETY FOR PEDIATRIC AND ADOLESCENT GYNECOLOGY

HYATT REGENCY
GRAND CYPRESS

ORLANDO
FLORIDA

29TH ANNUAL CLINICAL & RESEARCH MEETING

APRIL
16-18
2015

F I N A L P R O G R A M

welcome

On behalf of the Program Committee, it is a pleasure to welcome you to this year's meeting!

One of my favorite features of the North American Society of Pediatric and Adolescent Gynecology is that it puts the care of adolescents and girls in center focus and layers evidence-based recommendations, education and research around them. It is a Society that is filled with balance: medicine and surgery, routine and very complex, clinical care and psychosocial needs, domestic and international, teaching and learning, codifying and discovering. NASPAG incorporates it all! This variety is the challenge and the reward of providing gynecologic care to girls and adolescents. It was a goal of the Program Committee to plan an annual meeting that reflects this balance and to highlight some of the exciting research and advances in clinical care that are happening in the field.

Prepare for some outstanding plenary speakers and PAG experts presenting workshops and luncheons. A first for this year, NASPAG leaders will provide Clinical Recommendations, endorsed by NASPAG, on three important clinical topics (Müllerian Anomalies, Lichen Sclerosus, Labial Adhesions). The research at NASPAG has never been stronger, as you will see in the four oral abstract sessions, two poster sessions with authors, and video abstracts! Our International Forum will be moderated by Ellen Rome, President of the International Federation of Infantile and Juvenile Gynecology and President-elect of NASPAG. This session will highlight the health of the world's adolescents in a panel discussion and will offer a global context for providing this care.

Please, also plan to have fun! Hats off to the Committee, our President, Lisa Allen, our Executive Director, Joe Sanfilippo and our management group at Talley for choosing a beautiful site and for creating a program with both academic and enjoyable elements. Please join in on our lively debates and see if our trainees can Stump the Professors. You also have a couple of NASPAG ACRM options for physical activity. Friday morning, join Dr. Jordan Metzl's workout/workshop: IronStrength: Home-based Strength Training for Athletes of all Ages. This doctor, author, marathoner and IronMan will hopefully take it easy on us just before his plenary talk. On Saturday morning, the NASPAG Fun Run will take place on the grounds of the beautiful Hyatt Regency Grand Cypress—come enjoy the fresh air, exercise, scenery and camaraderie.

There is a lot to fit into this meeting, and it goes by so quickly. Even so, I'd like to present you with a few challenges to accomplish during this time: take at least one clinical pearl from this meeting to improve your clinical practice; talk with someone you do not know and seek ways to collaborate; make a note of a new research question and make plans to answer it yourself or share it with the NASPAG research committee; make a plan to share what you've learned; have fun; be inspired. This is the place where care for girls and adolescents is enhanced and the future of PAG is enriched; it is really exciting to be here with you.

Enjoy!

Melissa Kottke, MD

Chair, ACRM 2015 Program Committee

greetings

Greetings from the NASPAG President!

On behalf of the NASPAG Board it is my pleasure to welcome you to the 29th Annual Clinical and Research Meeting at the Hyatt Regency Grand Cypress, Orlando Florida.

Missy Kottke, our Program Chair and the entire Planning Committee have put together an outstanding meeting for you. For those of you who have attended before you will notice several new features a result of our commitment to continually refresh the annual meeting with new venues for learning.

First and foremost, our new NASPAG Mobile App. This format will allow you to access our program on your handheld devices and for us to communicate updates during the meeting. The APP coupled with our ongoing commitment to providing WiFi in the meeting rooms will keep you connected and informed.

Our abstract program attracted a record number of submissions this year, so congratulations to all of our presenters who were selected as an oral, a poster or our newest abstract format, a video. Your opportunity to discuss interesting posters is doubled this meeting with two meet the author sessions. Drop by the “video theater”, to view the video abstracts. The “R” in our ACRM meeting is extremely important to NASPAG. In addition to our abstract program, to enrich the research that occurs in PAG we have provided both a research luncheon and workshop.

While we are always excited by our meeting enhancements we never want to forget our meeting favourites. Our Stump the Professor cases will keep you guessing. Our ever popular debates end our meeting with a lively discussion. The International Forum highlights the Health of the World’s Adolescents and our luncheon Hot Topics will focus attendees on our new NASPAG Clinical Recommendations.

A great big thank you to all of our plenary speakers, the topics are diverse and our speakers top notch.

Enjoy the science, but leave some time to enjoy the camaraderie of colleagues aligned with your interests to further the reproductive health care of children and young women. Network at the Welcome Reception. Join a Special Interest Group. Exercise with your Friends at the Fun Run and the Iron Strength Interactive Workshop by Dr. Jordan Metzl.

New NASPAG members, I hope to meet you at the New Member’s Reception.

To all of our attendees, we really hope you are as excited by this meeting as we are. Finally don’t forget to fill in your meeting evaluations!

Lisa Allen
President NASPAG

welcome

Welcome from the Executive Director!

All the right ingredients for an environment to educate the educators and benefit from the many exciting local nationally and internationally known “fun events”, that is what we have in store for you! Our Program Chair, Dr. Melissa “Missy” Kottke has spent tireless hours identifying and recruiting top name speakers and individuals sure to garner your attention and take you to the “next level” in pediatric and adolescent gynecology. You will learn about the most current approach to management of Müllerian Anomalies, pediatric gynecologic emergencies, the latest regarding polycystic ovarian syndrome in the adolescent—indeed criteria for the diagnosis take on a whole different meaning in adolescents and young adults. How about Body Art in the 21st century? The Food for Thought luncheons are sure to pique your interest and will complement the many challenges the Stump the Professors will experience! It’s all here at your fingertips.

Now we chose Orlando to hold our meeting so you and ideally your family can experience a host of areas of interest. Perhaps you are interested in Busch Gardens or LEGOLAND-Florida, Sea World is in its 50th year Celebration, Universal Studios, Wet and Wild-Orlando or the Orlando Theme Parks, just a short ride down the road. Now are you up for an adventure, let’s consider the Transformers—the 3-D ride at Universal Orlando Resort. Ready for a little magic? Try the newly updated and exciting The Wizard World of Harry Potter for an adventure.

Now back to the science, the NASPAG Mission statement focuses on “educating healthcare professionals” and indeed “accolations” go to the Program Committee, their due diligence and attention to detail, set the stage for an outstanding program with lots of time for interaction. We have addressed what you the participants have requested in feedback from past programs, so here it is “neatly packaged” for you to reap the benefits.

I would be remiss not to acknowledge the incredible energy our President, Dr. Lisa Allen, has invested in NASPAG over the past year. It has been a privilege to work with her as she has served as our “leader” with incredible progress and many new and indeed exciting areas that NASPAG has expanded into. Indeed much recognition goes to our energetic NASPAG Board for sharing their time, talent and expertise to our administrative body—Talley, for seeing to the details that are responsible for a most successful meeting. Look forward to greeting you!

Joe Sanfilippo, MD, MBA
Executive Director

29TH ANNUAL CLINICAL & RESEARCH MEETING

NORTH AMERICAN SOCIETY FOR PEDIATRIC AND ADOLESCENT GYNECOLOGY

MISSION AND GOALS

The mission of the North American Society for Pediatric and Adolescent Gynecology is to provide a forum for education, research and communication among health professionals who provide gynecologic care to children and adolescents.

The North American Society for Pediatric and Adolescent Gynecology shall pursue scientific and educational goals, including the following:

- Conduct and encourage programs of medical education in the field of pediatric and adolescent gynecology.
- Encourage and support professional training programs in pediatric and adolescent gynecology.
- Provide leadership and serve as a forum for research in the field of pediatric and adolescent gynecology.
- Promote communication and collaboration among health care professionals on issues related to pediatric and adolescent gynecology.

overview

The 29th Annual Clinical and Research Meeting (ACRM) of the North American Society for Pediatric and Adolescent Gynecology (NASPAG) is designed for primary care physicians, specialists, nursing and allied health professionals, and physicians in training whose practices include pediatric and adolescent female patients and/or whose practices include the gynecologic care of pediatric and adolescent patients. The course will consist of keynote sessions and concurrent presentations addressing critical issues in pediatric and adolescent gynecology, surgery, endocrinology and sexuality. The faculty and participants will interact in a variety of formats, including formal and informal group discussions, scientific oral and poster sessions, and lively debates in order to disseminate the latest information concerning pediatric and adolescent female patients. In addition, interactive sessions will include video format presentation. To further augment the learning experience the audience response system will be utilized in two sessions allowing for a more interactive session while providing immediate speaker feedback regarding teaching and learning goals.

CONFERENCE OBJECTIVES:

At the conclusion of the meeting, attendees should be better able to:

- Update their knowledge on issues in pediatric and adolescent gynecology, surgery, endocrinology and sexuality.
- Modify their practices by providing updated information on common and uncommon pediatric and adolescent gynecology issues.
- Improve patient outcomes by utilizing new knowledge on surgical issues, common and uncommon gynecological issues, and sexual abuse.

GENERAL SESSION QUESTIONS

Five minutes have been scheduled at the end of each presentation for floor discussion. Please step to the floor microphone, state loudly and distinctively your name and affiliation. Out of courtesy for the presenter, as well as to provide an opportunity for more participants to speak, discussants are not permitted to give “mini-papers”.

CONTINUING MEDICAL EDUCATION

This activity has been planned and implemented in accordance with the Essential Areas and Polices of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of Emory University School of Medicine and the North American Society of Pediatric and Adolescent Gynecology. The Emory University School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The Emory University School of Medicine designates this live activity for a maximum of 18.5 *AMA PRA Category 1 Credits*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

American Nurses Credentialing Center (ANCC) – ANCC accepts *AMA PRA Category 1 credits* for Nurses from approved ACCME providers.

DISCLOSURE OF FACULTY AND INDUSTRY RELATIONS

In accordance with Emory University School of Medicine policy, all faculty, planning committee, and staff are requested to sign a conflict of interest statement in which they disclose any financial interests or other relationships with industry relative to topics they will discuss at this program. Disclosure information is reviewed in advance in order to manage and resolve any possible conflicts of interest (real or perceived). A complete list of disclosures is available on pages 28-29.

CONFERENCE REGISTRATION

Admission

Conference name badges are required for admission to all activities related to the ACRM, including the exhibit hall and social events.

Registration Desk

The 2015 ACRM Registration Desk is located in the Portico East Foyer. The Registration Desk will be open and staffed during the following hours:

Wednesday, April 15, 2015	4:00 pm – 7:00 pm
Thursday, April 16, 2015	6:30 am – 6:00 pm
Friday, April 17, 2015	6:30 am – 6:00 pm
Saturday, April 18, 2015	6:30 am – 12:30 pm

SPEAKER READY ROOM – OFFICE #1

Speakers are asked to check-in with our AV staff at least 4-hours prior to your presentation. The Speaker Ready Room will be available during conference hours, 7:00 am – 5:00 pm, Thursday-Friday. Hours subject to change.

NASPAG Raffle

We are pleased to announce we will be holding a raffle again this year at the ACRM to benefit the Young Scholars program. Proceeds will go towards scholarships for the 2016 ACRM. Raffle tickets will be sold throughout the meeting, and the drawing will be held on Saturday morning during the Scientific Award Presentations. Please note that you do not have to be present to win.

Tickets prices are as follows:

5 tickets for \$10

15 tickets for \$25

30 tickets for \$50

Tickets may be purchased on-site at the NASPAG Registration Desk during normal registration hours.

LUNCHEONS

Box lunches will be provided on Thursday, April 16 for all meeting registrants. Lunches will be available prior to the start of the lunch sessions for registered attendees only. Dining options are available at the hotel and nearby. Please visit the hotel concierge for more information or assistance with reservations.

On Friday, April 17, the hotel will have a limited number of “Grab and Go” lunches available. This will allow attendees to purchase food prior to attending the lunch sessions.

SAFETY FIRST

Always be aware of your surroundings and practice basic safety rules. Please travel in groups and only in familiar places. When leaving the hotel property, do not wear your name badge as this could identify you as a visitor.

NASPAG cannot be responsible for your safety at the Hyatt Regency Grand Cypress throughout the hotel or conference.

SKYLA/MIRENA INSERTION TRAINING SESSION

This session is scheduled for Friday, April 17, 2015 from 6:30 pm - 8:30 pm in Cypress A at the Hyatt Regency Grand Cypress. This session, supported by a grant from Bayer, is geared toward adolescent medicine healthcare professionals and will provide hands-on experience regarding indications, contraindications, risks and benefits of IUS's, and provide supervised instruction on insertion and removal. This will allow attendees to feel comfortable offering this service to their patients. There are only 30 seats available for this session.

CLINICAL TRAINING PROGRAM FOR NEXPLANON® (etonogestrel implant)

This session is scheduled for Friday, April 17, 2015 from 6:30 pm – 8:30 pm in Cypress B at the Hyatt Regency Grand Cypress. This session, which is sponsored by Merck, is not accredited for continuing education credit. The training is open only to advanced practice clinicians with furnishing numbers or prescribing privileges in their state. It is Merck's policy to verify all clinicians' practice, license, and eligibility information in advance of the training. Merck will contact you directly if there are any questions. Attendees are expected to attend the entire training which is approximately 3 hours in duration. Certificates of attendance will not be issued to those who arrive late or leave early.

FUN RUN & WALK

On Saturday morning, April 18, join us for our annual Fun Run (3K) & Walk (1K), a NASPAG fund-raiser. If you have not signed up, there is still time to register. Details are available at the NASPAG registration desk.

Important missions of NASPAG include providing leadership in research and serving as a forum for research in the field of pediatric and adolescent gynecology. Each year NASPAG recognizes researchers with awards for best research by a trainee, best poster presentation, and best oral presentation.

The Evelyn G. Laufer Award recognizes the best oral presentation.

The Huffman Capraro Award recognizes the best oral research presentation by an individual in training (student, resident or fellow). To win this award requires both outstanding research and strong mentorship.

The Sally E. Perlman Award recognizes the best poster presentation.

- 9:30 am **A1** - *A Survey Of Adolescents' Attitudes Toward Over-The-Counter Access To Oral Contraceptives*
Ruth Manski, BA
- 9:45 am **B1** - *Weight Gain And Unscheduled Bleeding On Three Doses Of Depot Medroxyprogesterone Acetate: A Randomized Trial In Adolescents*
Andrea E. Bonny, MD
- 10:00 am **C1** - *Implications For The Future Of Pediatric And Adolescent Girls With Mccune-Albright Syndrome: Long Term Obstetrical And Gynecologic Outcomes*
Rachel K. Casey, MD
- 10:15 am **D1** - *The Effect Of Hormonal Add-Back Therapy In Adolescents Treated With A Gonadotropin Releasing Hormone (GnRH) Agonist For Endometriosis: A Randomized Trial*
Amy D. DiVasta, MD, MMSc

10:30 am – 10:45 am
PORTICO EAST / WEST

Break – Posters – Exhibits

10:45 am – 11:45 am
GRAND CYPRESS A

Concurrent Workshops
T1 - *Müllerian Anomalies: Managing the Unexpected*
Janeen Arbuckle, MD, PhD

At the conclusion of this presentation, attendees will be better able to:

- List the key findings in OHVIRA.
- Describe the common presentation of patients with OHVIRA.
- Identify treatment options for patients with OHVIRA.

GRAND CYPRESS B

T2 - *Sexual Function in Female Patients with Complex Urologic Conditions*
Elise Dubuc, MD

At the conclusion of this presentation, attendees will be better able to:

- Explore the relationships between media, body image, self esteem, and obesity and eating disorders.
- Develop a practical approach to talking about these issues with youth, and screening for concerns without triggering unhealthy eating behaviors.
- Develop an understanding of how to foster positive health behaviors and promote healthy body image in youth.

GRAND CYPRESS C

T3 - *Adolescents and PCOS in a Busy Clinical Practice: Making the most of your 15 minutes*
Amy E. Sass, MD, MPH; Patricia Huguelet, MD

At the conclusion of this presentation, attendees will be better able to:

- Highlight the benefits and drawbacks of different diagnostic criteria of PCOS pertaining to adolescents.
- Review clinical variability in evaluation and management of PCOS in adolescents.
- Describe strategies for the most optimal treatment and prevention of long-term morbidities of PCOS in adolescents.
- Construct a clinical toolkit of essential components for caring for adolescents with PCOS including: evaluation, treatment and patient education resources.

GRAND CYPRESS G

T4 - *Abstracts, Posters, and Manuscripts: Getting Your Point Across*
Ellen L. Connor, MD; Andrea E. Bonny, MD; Veronica Gomez-Lobo, MD

THURSDAY, APRIL 16, 2015

At the conclusion of this presentation, attendees will be better able to:

- Learn to design a clinical research project using defined steps.
- Learn to identify and strengthen a research question.
- Understand the different types of research studies.
- Practice designing a research project.
- Know how to choose collaborators and mentors.

GRAND CYPRESS H

T5 - SAHM Workshop: Body Art in the 21st Century: Piercing, Tattooing, Vajazzle. What Will They Think of Next?

Estherann M. Grace, MD

At the conclusion of this presentation, attendees will be better able to:

- Review historical perspectives of body art techniques.
- Identify the medical complications of body art technique.
- Delineate the medical management of the complications of piercing, tattooing, and pubic hair shaving.

GRAND CYPRESS I

T6 - Pediatric Gynecology Emergencies

Heather Appelbaum, MD

At the conclusion of this presentation, attendees will be better able to:

- Be able to evaluate vulvovaginal bleeding in the ER and distinguish between hormonal, hematologic, and structural causes of vulvovaginal bleeding in children.
- Recognize the clinical and radiologic findings associated with adnexal torsion and be able to differentiate between torsion and other causes of abdominal pain in children and adolescents.
- Identify obstructed Müllerian anomalies and the anatomical defects associated with hematocolpos.

11:45 am – Noon

PORTICO EAST / WEST

Break

Noon – 1:00 pm

LACOQUINA & ALCOVE

Food For Thought Roundtable Luncheons

(Lunch provided for registered attendees.)

L1 - Designing Clinical Research

Ellen L. Connor, MD; Andrea E. Bonny, MD

At the conclusion of this presentation, attendees will be better able to:

- Communicate research findings in scientific abstracts that interest the reader.
- Translate research into visually lucid poster presentations.
- Convey findings and draw accurate conclusions in original manuscripts.

L2 - Homeless but Not Hopeless: Promoting the Sexual and Reproductive Health of Homeless and Housing-Insecure Young Women Using Clinical and Community-Based Strategies

Andrea J. Hoopes, MD; Yolanda Evans, MD, MPH; Brandi Shah, MD, MPH

At the conclusion of this presentation, attendees will be better able to:

- Screen for homelessness and housing insecurity in their clinical practice.
- Identify and manage common sexual and reproductive health issues that occur in homeless and housing insecure youth and how these differ from the general population.
- Identify and partner with community organizations/resources in order to serve related needs of the youth.

THURSDAY, APRIL 16, 2015

L3 - Bariatric Surgery and PAG

Dvora Bauman, MD

At the conclusion of this presentation, attendees will be better able to:

- Discuss the high morbidity caused by obesity in PAG.
- Understand the obstacles in achieving weight reduction.
- Identify medical and surgical methods for treating obesity in PAG population.
- Develop a tailored approach to obesity in PAG.

L4 - The Energy, Hormone, Bone Triad in Adolescent Health

Sarah Pitts, MD

At the conclusion of this presentation, attendees will be better able to:

- Describe the physiology of the hormonal disturbances contributing to bone health compromise in adolescent with nutritional deficiencies.
- Develop a evaluation and care plan for adolescents with hormonal disturbances and/or bone health compromise as a result of their nutritional deficiencies.
- Define the pediatric bone density parameters as outlined in the 2014 International Society for Clinical Densitometry Guidelines.

L5 - Updates in Contraception for the Adolescent

Colleen P. McNicholas, DO; Kathryn Squires, MD

At the conclusion of this presentation, attendees will be better able to:

- Describe indications and contraindications to the use of various contraceptive methods in adolescents.
- Define and better understand unique aspects of contraceptive uptake and adherence in adolescents.
- Present data from the Contraceptive CHOICE project on contraceptive uptake, adherence and continuation rates in the adolescent population relative to their adult counterparts.

**L6 - Nuts and Bolts: Capacity Building of Adolescent Medicine in Uganda**

Betsy Pfeffer, MD; Sabrina Kitaka, MD

At the conclusion of this presentation, attendees will be better able to:

- Discuss the background of the collaboration between the Departments of Pediatrics at Makerere and Columbia Universities (MUCU), its projects, and its future goals.
- Share their own experiences in building global health relationships.

L7 - Risky Business - E-cigarettes & Tanning Booths!

Nichole A. Tyson, MD

At the conclusion of this presentation, attendees will be better able to:

- Discuss prevalence and practice pattern of e-cigarette and tanning booth use among the adolescent population.
- Discuss the risks associated with these practices.
- Create strategies to counsel and implement behavior change, preventing use and cessation of use.

L8 - Ovarian Masses and De-Mystifying Torsion--Sparing the Ovary at Surgery

Mary Anne Jamieson, MD

At the conclusion of this presentation, attendees will be better able to:

- Discuss the evidence behind conservative surgery for adnexal torsion (detorsion).
- Choose pre-op investigations responsibly for the adnexal mass in a child or teen.

THURSDAY, APRIL 16, 2015

- Describe practical surgical tips, tricks and pearls for adnexal sparing surgery with the smallest incisions possible (even when laparoscopy is not possible).

L9 - *Metformin in Minors: Miracle, Mystery or Mistake?*

Pamela J. Murray, MD, MPH

At the conclusion of this presentation, attendees will be better able to:

- Review approved uses of metformin in minors.
- Review literature about novel uses of metformin including metabolic syndrome components, weight loss/prevention of weight gain, treatment of acanthosis nigricans.
- Review suggestions and guidance for off label use.

L10 - *Leveraging Social Media in Health and Medicine*

Rupa DeSilva, MD, FACOG

At the conclusion of this presentation, attendees will be better able to:

- Understand what social media tools are available to assist the PAG practitioner.
- Understand what social media tools can assist to empower the pediatric or adolescent patient.
- Understand how social media can enhance or detract from a provider's practice.

L11 - *Motivational Interviewing and the Treatment of Childhood and Adolescent Obesity*

Shawn Lawrence, PhD, LCSW

At the conclusion of this presentation, attendees will be better able to:

- Understand the psychosocial impact of obesity on children and adolescents.
- Have a general understanding of the utilization of motivational interviewing to treat children and adolescents who are overweight or obese.

L12 - *What's New in Puberty*

Frank M. Biro, MD

At the conclusion of this presentation, attendees will be better able to:

- Learn about new findings in the scientific study of puberty, including underlying reasons for earlier onset of puberty in girls, and peripubertal changes in sex hormones prior to the development of secondary sex characteristics.

L13 - *Health Care Disparities and the Social Determinants of Health in STI*

Lisa C. Barkley, MD

At the conclusion of this presentation, attendees will be better able to:

- Discuss how the social determinants of health impact on the racial and gender disparities in STI.
- Discuss strategies to address social determinants that negative impact on STI health outcomes.
- Identify methods that can successfully promote positive developmental assets and reduce STI disparities.

L14 - *FIGIJ, Our Global Partners in PAG*

Ellen Rome, MD, MPH

At the conclusion of this presentation, attendees will be better able to:

- Learn about opportunities for collaboration with international colleagues in PAG.
- Identify areas where education gaps exist, including curricula in various countries, resources, and PAG providers.
- Discuss specific care challenges in underdeveloped countries, including obstetric fistula in Africa, FGM, and other challenges.

THURSDAY, APRIL 16, 2015

L15 - A Multi-Disciplinary Approach to the Critically Ill Adolescent
Dawn M. Grinenko, MD

At the conclusion of this presentation, attendees will be better able to:

- To use Cicely Saunders concept of Total Pain as an approach to identify how a patient may be suffering.
- To explore sexual issues and questions unique to medically complex teens.
- To introduce the concept of shared medical decision-making.
- To recognize the unique challenges of relationships with peers, family, providers.

Noon – 1:00 pm

GRAND CYPRESS DEF

Hot Topics: New NASPAG Clinical Recommendations
(Lunch provided for registered attendees.)

To give access to several hot topics related to pediatric and adolescent gynecology in a large group setting as an alternative to the Food for Thought Roundtable Luncheons.

Müllerian Anomalies

Jennifer E. Dietrich, MD, MSc

At the conclusion of this presentation, attendees will be better able to:

- Review salient points from non-obstructive Müllerian Anomalies NASPAG clinical recommendation.
- Review salient points from obstructive reproductive tract anomalies NASPAG clinical recommendation.

Lichen Sclerosus

Judith S. Simms-Cendan, MD

Labial Adhesions

Janice L. Bacon, MD

At the conclusion of this presentation, attendees will be better able to:

- Discuss current treatment recommendations for Müllerian Anomalies, Lichen Sclerosus, and Labial Adhesions.

1:00 pm – 1:15 pm

PORTICO EAST / WEST

Break

1:15 pm – 2:15 pm

GRAND CYPRESS DEF

Plenary Session II: The Elsevier Lectureship
Moderator: Diane F. Merritt, MD

Confidentiality in Pediatric and Adolescent Gynecology: When We Can, When We Can't and When We're Challenged

Elizabeth M. Alderman, MD

At the conclusion of this presentation, attendees will be better able to:

- To learn the rights of adolescents to confidential health services and their limitations.
- To learn ways to address practical issues in providing confidential health services to adolescents.
- To understand how to preserve confidentiality for adolescents in the age of EMR and Meaningful Use.

2:15 pm – 3:15 pm

GRAND CYPRESS DEF

Scientific Paper Presentations

Moderator: Heather Applebaum, MD

2:15 pm

A2 - Adolescent Self-Screening For Contraindications To Combined Oral Contraceptive Pills
Rebekah L. Williams, MD, MS

THURSDAY, APRIL 16, 2015

- 2:30 pm **B2** - *Adolescent Contraception Choices: Predictors Of Long Acting Reversible Contraceptive Use*
Lisa Moon, MD
- 2:45 pm **C2** - *Salient Descriptions About Adolescent Participation In Reproductive Health Clinical Trials*
Jenny Francis, MD
- 3:00 pm **D2** - *Utility Of Ultrasound And Mri In Patients With Disorders Of Sex Development Undergoing Prophylactic Gonadectomy*
Veronica Alaniz, MD

3:15 pm – 4:00 pm **Poster Sessions (authors present) – Break – Exhibits**
PORTICO EAST / WEST

3:15 pm – 4:00 pm **Video Abstract Session (authors present)**
HYDRANGEA
Moderator: Jennifer Rehm, MD

- 3:15 pm **VP1** - *The Surgical Management Of An Ohvira Variant With Previous Vaginal Surgery*
Ian Comeau, MD
- 3:30 pm **VP2** - *Hysteroscopic Metroplasty: Complete Uterine Septum*
Beth W. Rackow, MD
- 3:45 pm **VP3** - *Creating A Simulation For Pediatric Gynecology*
Sarah Hagood Milton, MD

4:00 pm – 5:00 pm **Concurrent Workshops**
GRAND CYPRESS A
T7 - *The Ins and Outs of Imaging the Reproductive Tract in Pediatric and Adolescent Girls*
Lesley L. Breech, MD; Kathy Helton-Skally, MD

At the conclusion of this presentation, attendees will be better able to:

- Evaluate the advantages and disadvantages of varying imaging modalities for reproductive tract in pediatric and adolescent girls.
- Describe case scenarios when the US or MRI may be preferable to evaluate the reproductive anatomy.
- Explain tricks and tips to get better images using either technique.

GRAND CYPRESS B **T8** - *Evaluation and Management of Common Breast Problems in Adolescents*
Amy D. DiVasta, MD, MMSc

GRAND CYPRESS C **T9** - *“Mirror, Mirror on the Wall...”: Exploring How Healthcare Providers Can Promote Healthy Body Image in Youth*
Megan Harrison, MD

At the conclusion of this presentation, attendees will be better able to:

- Explore the relationships between media, body image, self esteem, and obesity and eating disorders.
- Develop a practical approach to talking about these issues with youth, and screening for concerns without triggering unhealthy eating behaviors.
- Develop an understanding of how to foster positive health behaviors and promote healthy body image in youth.

THURSDAY, APRIL 16, 2015

GRAND CYPRESS G

T10 - Complex Medical Problems? Complex Contraception
Sari Kives, MD; Alene Toulany, MD, FRCPC

At the conclusion of this presentation, attendees will be better able to:

- Identify medically complex patients.
- Discuss optimal management of contraception in this population.
- Identify potential risk factors and pitfalls in this population choosing contraception.

GRAND CYPRESS H

T11 - Heavy Menstrual Bleeding in Adolescents and Modern Management
Nancy Sokkary, MD; Jessica Francis, MD

This session is sponsored by The Foundation for Women and Girls with Blood Disorders.

At the conclusion of this presentation, attendees will be better able to:

- Review the basics of establishing a diagnosis if you suspect a bleed disorder, the work-up and the hormonal and non-hormonal options for management.
- Describe the importance of collaboration with the hematologist to ensure integrative, comprehensive management of adolescents with heavy menstrual bleeding and those with HMB and a bleeding disorder.
- Implement modern management for heavy menstrual bleeding in adolescents.

GRAND CYPRESS I

T12 - Sexual Education/Assault Prevention for Women with Disabilities
Susan D. Ernst, MD

At the conclusion of this presentation, attendees will be better able to:

- Describe multiple modalities (books, websites, pamphlets, pictures, anatomically correct dolls) used for sexual education for adolescents with disabilities.
- Outline the risk for sexual assault in adolescents with disabilities and how to screen for abuse.
- Discuss current literature on prevention of sexual assault and describe some educational programs to teach adolescents with disabilities to avoid assault.

5:00 pm – 5:30 pm
UPPER POOL DECK

New Members Reception (by invitation only)

5:30 pm – 7:00 pm
UPPER POOL DECK

Welcome Reception - Wine and Cheese

FRIDAY, APRIL 17, 2015

6:30 am – 7:30 am

GRAND CYPRESS ABC

Interactive Workshop:

IronStrength - Home-Based Strength Training for Athletes of All Ages

Please note this is a physical activity

Jordan D. Metz, MD

6:30 am – 6:00 pm

PORTICO EAST/WEST

Registration

7:00 am – 8:00 am

PORTICO EAST / WEST

Continental Breakfast – Exhibits

FRIDAY, APRIL 17, 2015

8:00 am – 9:00 am
GRAND CYPRESS DEF **Plenary Session III - The Joseph F. Russo, MD, Lectureship**
Moderator: Frank M. Biro, MD

Care of the Young Female Athlete
 Jordan D. Metz, MD

9:00 am – 10:00 am
GRAND CYPRESS DEF **Symposium**
HPV Update: Where Are We Now?
 Amy Middleman, MD, MEd, MPH
This session is supported by an unrestricted educational grant from Merck.

At the conclusion of this presentation, attendees will be better able to:

- Review latest update on HPV.
- Discuss effective provider strategies to improve immunization rates.
- Review barriers providers may face implementing HPV treatment and immunization.
- Communicate effectively with patients regarding HPV prevention.
- Discuss evolving best practices for HPV.

10:00 am – 10:15 am
PORTICO EAST / WEST **Break – Posters – Exhibits**

10:15 am – 11:30 am
GRAND CYPRESS DEF **Scientific Paper Presentations**
Moderators: Amy D. DiVasta, MD, MMSc and Andrea E. Bonny, MD

- 10:15 am **A3** - *Preventing Teen Pregnancy: A Qualitative Study Of The Perspectives Of Parenting And Expecting Latino Adolescents*
 May Lau, MD, MPH
- 10:30 am **B3** - *Patterns Of Treatment Of Acute Genital Trauma In Girls*
 Tazim Dowlut-McElroy, MD
- 10:45 am **C3** - *What Is The Impact Of Obesity On Adolescent Pregnancy?*
 Tana L. Hall, MD
- 11:00 am **D3** - *Evolution In The Management Of Pediatric And Adolescent Ovarian Torsion As A Result Of Quality Improvement Measures*
 Nicole Hubner, MD, FRCSC
- 11:15 am **E3** - *Cervical Immaturity As A Marker For Increased Risk For STIs*
 Jason Jarin, MD

11:30 am – 11:45 am
PORTICO EAST / WEST **Break – Posters – Exhibits**

11:45 am – 12:45 pm
GRAND CYPRESS A **Concurrent Workshops**
F1 - *Common Pediatric Urologic Problems In Girls*
 Saifuddin T. Mama, MD, MPH, FACS; T.E. Figueroa, MD, FAAP, FACS

At the conclusion of this presentation, attendees will be better able to:

- Understand the etiology of common presentations of urinary problems in female children.
- Understand how to diagnose common presentations of urinary problems in female children.
- Understand the modes of treatment of common presentations of urinary problems in female children.

FRIDAY, APRIL 17, 2015

GRAND CYPRESS B **F2 - Diagnosing and Managing Obesity Comorbidities in Adolescent Girls in Your Practice: Yes, You Can**
Ellen L. Connor, MD; Jennifer Rehm, MD

At the conclusion of this presentation, attendees will be better able to:

- Diagnose comorbidities of obesity in adolescent girls.
- Treat comorbidities of adolescent obesity.
- Counsel girls and families about the risks and treatment of obesity comorbidities, and use motivational interviewing to set goals for treatment.

GRAND CYPRESS C **F3 - Why is My Daughter Bleeding? She hasn't Started Her Period Yet!**
Laura A. Parks, MD; Diane F. Merritt, MD

At the conclusion of this presentation, attendees will be better able to:

- Describe the most common etiologies of pre-pubertal bleeding.
- Describe the basic pediatric exam for bleeding and vaginoscopy.
- Describe the treatment of the common causes of pre-pubertal bleeding.

GRAND CYPRESS G **F4 - Nursing Support and Education Model for PAG**
Phaedra Thomas, BSN; Vicki Burke, BSN

At the conclusion of this presentation, attendees will be better able to:

- Describe the PAG nursing and triage model at Boston Children's Hospital and how this model may be adapted to other practices.
- Identify the basic steps when developing educational materials for adolescents.
- Identify age-appropriate educational resources for adolescents including online chats, health guides, and patient centered conferences.

GRAND CYPRESS H **F5 - Need To Be Two Places At Once? Create Your Own PAG eModules: A Hands-on Tutorial**
Judith S. Simms-Cendan, MD; Dale Voorhees, MA

At the conclusion of this presentation, attendees will be better able to:

- Become familiar with best practices for effectively engaging the eModule user.
- Learn about available software to develop self-learning modules.
- Practice developing interactive cases, quizzes, and slide narrations.

GRAND CYPRESS I **F6 - Beyond Abstinence and Risk: Exploring a New Paradigm for Adolescent Sexual Health**
Veenod Lachu Chulani, MD

At the conclusion of this presentation, attendees will be better able to:

- Identify the contributions of the "Abstinence" and "Sex as Risk Taking" paradigms in healthcare practice.
- Describe the alternative ABCD paradigm of adolescent sexuality.
- Discuss and explore practical applications of ABCD paradigm in adolescent sexual and reproductive health promotion.

12:45 pm – 1:00 pm
PORTICO EAST / WEST **Break – Posters – Exhibits**

1:00 pm – 1:45 pm
GRAND CYPRESS DEF **Stump the Professor Luncheon**
Moderator: Elizabeth Miller, MD
Cynthia M. Holland-Hall, MD; Mary Anne Jamieson, MD; Julie L. Strickland, MD, MPH

This session will focus on the diagnosis of cases, selected from attendee submissions, and the attempt to stump the panel with the cases.

FRIDAY, APRIL 17, 2015

1:45 pm - 2:00 pm
PORTICO EAST / WEST

Break – Posters – Exhibits

2:00 pm – 3:00 pm
GRAND CYPRESS DEF

Plenary Session IV: *The Alvin Goldfarb Lectureship*
Moderator: Nathalie Fleming, MD

Oncofertility
Teresa K. Woodruff, PhD

At the conclusion of this presentation, attendees will be better able to:

- Understand cancer and cancer treatments impact on fertility.
- Understand what current fertility management options exist.
- Understand what emerging fertility options are under development.

3:00 pm – 4:00 pm
GRAND CYPRESS DEF

Scientific Paper Presentations
Moderator: Veronica Gomez-Lobo, MD

- 3:00 pm **A4 - *Fertility Options In Patients With Mrkh: Should Location Of Gonads Change Counseling?***
Lisa Jeannette Green, MD, MPH
- 3:15 pm **B4 - *Extended Use Of Percutaneous Obstructed Vagina Access (POVA) Technique For Safe Entry Into PYO/Hematometrocolpos***
Beverly G. Reed, MD
- 3:30 pm **C4 - *Müllerian Papilloma In A 3-Year Old, An Approach To Diagnosis***
Amber Maddox
- 3:45 pm **D4 - *Isolated Torsion Of The Fallopian Tube In An Adolescent Girl: A Diagnostic Dilemma***
Rubin Raju, MD

4:00 pm – 4:45 pm
PORTICO EAST / WEST

Poster Sessions (authors present) – Break – Exhibits

4:00 pm – 4:45 pm
HYGRANGEA

Video Abstract Session (authors present)
Moderator: Gina Sucato, MD, MPH

- 4:05 pm **VP4 - *Herlyn Werner Wunderlich Syndrome- An Unusual Presentation***
Rubin Raju, MD
- 4:25 pm **VP5 - *Use Of Vaginal Dilators For Neovagina Creation***
Oluyemisi Adedoyin Adeyemi, MD

4:45 pm – 5:45 pm
GRAND CYPRESS A

Concurrent Workshops
F7 - *The ABC's of Setting Up a Successful Oncofertility Medical Program*
Teresa K. Woodruff, PhD; Brigid Smith; Kristin Smith

At the conclusion of this presentation, attendees will be better able to:

- To understand cancer and cancer treatments impact on fertility.
- To understand what current fertility management options exist.
- To understand what emerging fertility options are under development.

FRIDAY, APRIL 17, 2015

GRAND CYPRESS B **F8 - Shared Decision Making and Disorders of Sex Development: Strategies to Optimize Patient and Family Satisfaction and Decrease Decisional Regret**
Anne-Marie Amies-Oelschlager, MD; David Sandberg, PhD, Arlene B. Baratz, MD;
Elizabeth Quint, MD; Lesley Breech, MD

At the conclusion of this presentation, attendees will be better able to:

- Understand factors implicated in decisional regret, and the background, process, and the importance to providers.
- Learn how decision support tools affect treatment choice satisfaction, and how to work with families affected by the disorders/differences of sex development to help them benefit from online decision support tool.
- Anticipate and understand benefits and challenges to implementation of shared decision making in practice, especially in multidisciplinary clinics and where ample uncertainty exists.

GRAND CYPRESS C **F9 - Pelvic Pain in Adolescents**
Judith T. Burgis, MD; Janice L. Bacon, MD

At the conclusion of this presentation, attendees will be better able to:

- Perform an appropriate history and evaluation of an adolescent with pelvic pain.
- State the gynecologic causes of non acute pelvic pain.
- Understand the guidelines for long term management of these patients.

GRAND CYPRESS G **F10 - Vulvar Disorders in Girls and Adolescents**
Lori A. Boardman, MD

At the conclusion of this presentation, attendees will be better able to:

- Identify basic epidemiologic characteristics and the pathogenesis of common vulvar disorders in children and adolescents.
- Summarize strategies for making the diagnosis of vulvar conditions.
- Discuss appropriate topical, oral and surgical treatments (as well as expectant therapy).

GRAND CYPRESS H **F11 - PAG ICD10 and Procedural Coding: Tips and Tricks**
Beth W. Rackow, MD

At the conclusion of this presentation, attendees will be better able to:

- Understand how to transition from using ICD9 to ICD10 codes, review relevant PAG diagnostic codes.
- Understand appropriate procedural coding and specific codes for common PAG procedures.
- Compare different ways to code for certain procedures and determine the most effective codes to utilize.

GRAND CYPRESS I **F12 - Proactive Outreach and Treatment of Sexually Exploited and Trafficked Youth**
Wendi G. Ehrman, MD; Tia C. Medley, MS, CNS, APNP

At the conclusion of this presentation, attendees will be better able to:

- Identify available resources for the children who are involved in the commercial sex trade.
- Identify risk factors and screening tools to provide assessment for at risk and exploited youth.
- Understand and list the medical/mental health measures needed in response to the acute and chronic needs of traumatized youth.

6:00 pm – 6:30 pm
GRAND CYPRESS DEF

Business Meeting

FRIDAY, APRIL 17, 2015

6:30 pm – 8:30 pm
GRAND CYPRESS A

Clinical Training*Skylla / Mirena Insertion Training Session*

This session, which is supported by a grant from Bayer, is geared toward adolescent medicine healthcare professionals and will provide hands-on experience regarding indications, contraindications, risks and benefits of IUS's, and provide supervised instruction on insertion and removal. This will allow attendees to feel comfortable offering this service to their patients. Space is limited – advance registration required.

**Session not eligible for CME credit.*

GRAND CYPRESS B

Nexplanon® (etonogestrel implant)

This session is ...supported by a grant from Merck. The training is open only to advanced practice clinicians with furnishing numbers or prescribing privileges in their state.

Advance registration is required as it is Merck's policy to verify all clinicians' practice, license, and eligibility information in advance of the training. Attendees are expected to attend the entire training which is approximately 3 hours in duration. Certificates of attendance will not be issued to those who arrive late or leave early. Space is limited – advance registration required.

**Session not eligible for CME credit.*

Plenary Session V: The NASPAG Lectureship

Moderator: Jennifer Dietrich, MD, MSc

Hypercoagulability in Adolescent Gynecology

Shannon Bates, MDCM, MSc, FRCP(C)

At the conclusion of this presentation, attendees will be better able to:

- Describe the hereditary thrombophilias and their risks in adolescents.
- Discuss the potential benefits, drawbacks and role of thrombophilia screening.
- Understand the thromboembolic risks of hormonal contraception in adolescents with a hereditary thrombophilia and/or family history of venous thromboembolism (VTE).

This session is sponsored by The Foundation for Women and Girls with Blood Disorders.

SATURDAY, APRIL 18, 2015

9:00 am – 10:00 am
 GRAND CYPRESS DEF

International Forum
Moderator: Ellen Rome, MD, MPH

The Health of the World's Adolescents
 Andrea J. Hoopes, MD
 Paul L. Wood, MD, FRCOG
 Rachel Spitzer, MD, MPH, FRCS(C)

At the conclusion of this presentation, attendees will be better able to:

- Learn about opportunities for collaboration with international colleagues in PAG.
- Identify areas where education gaps exist, including curricula in various countries, resources, and PAG providers.
- Discuss specific care challenges in underdeveloped countries, including obstetric fistula in Africa, FGM, and other challenges.

10:00 am – 10:15 am

10:15 am – 10:45 am
 GRAND CYPRESS DEF

Awards

10:45 am – 12:15 pm
 GRAND CYPRESS DEF

Debates on Controversial Topics in Pediatric and Adolescent Gynecology
Moderator: Eduardo Lara-Torre, MD

Debate 1: *Hypothalamic Amenorrhea: To Treat or Not to Treat with Estrogen Replacement*
 Gina S. Sucato, MD
 Meredith Loveless, MD

Debate 2: *Uterine Transplantation: Should We or Shouldn't We?*
 Veronica Gomez-Lobo, MD
 Lesley L. Breech, MD

At the conclusion of this presentation, attendees will be better able to:

- Discuss pro's and con's of treatment of Hypothalamic Amenorrhea.
- Discuss pro's and con's of Uterine Transplantation.

FACULTY DISCLOSURES

DISCLOSURE STATEMENT

It is the intent of Emory University School of Medicine to assure that its education mission, and continuing medical education activities in particular, not be influenced by the special interest of individuals associated with its programs. All faculty participating in a sponsored activity are expected to disclose to the audience two important points:

(1) Any significant financial interest or other relationship with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in an educational presentation;

(2) Any significant financial interest with any commercial supporters of the activity. (Significant financial interest or other relationships can include such things as grants or research support, employee, consultant, major stock holder, member of speaker's bureau, etc.).

All disclosed financial relationships were reviewed for potential conflicts of interest. Actions were taken to resolve any identified conflicts.

Alaniz, Veronica, MD: Dr. Alaniz has nothing to disclose.
Alderman, Elizabeth, MD: Dr. Alderman has nothing to disclose.
Allen, Lisa, MD: Dr. Allen has nothing to disclose.
Amies-Oelschlager, Anne-Marie, MD: Dr. Amies-Oelschlager is the recipient of research grants from Torax Medical, Covidien and Endogastric Solutions. She has received honoraria from Cook and WebMD.
Appelbaum, Heather, MD: Dr. Appelbaum has nothing to disclose.
Arbuckle, Janeen, MD, PhD: Dr. Arbuckle has nothing to disclose.
Bacon, Janice, MD: Dr. Bacon has nothing to disclose.
Baratz, Arlene B., MD: Dr. Baratz has nothing to disclose.
Barkley, Lisa, MD, FAAP: Dr. Barkley has nothing to disclose.
Bates, Shannon, MDCM, MSc, FRCP(C): Ms. Bates has nothing to disclose.
Bauman, Dvora, MD: Dr. Bauman has nothing to disclose.
Biro, Frank M., MD: Dr. Biro has nothing to disclose.
Boardman, Lori, MD: Dr. Boardman has received honorarium from ASCCP.
Bonny, Andrea, MD: Dr. Bonny has nothing to disclose.
Breech, Lesley, MD: Dr. Breech has received research support from Bayer.
Burgis, Judith T., MD: Dr. Burgis has nothing to disclose.
Burke, Vicki, BSN: Dr. Burke has nothing to disclose.
Casey, Rachel, MD: Dr. Casey has received research support from the Intramural Research Program of the National Institute of Health, National Institute of Dental and Craniofacial Research.
Chulani, Veenod Lachu, MD: Dr. Chulani has nothing to disclose.
Connor, Ellen, MD: Dr. Connor has nothing to disclose.
DeSilva, Rupa, MD, FACOG: Dr. DeSilva has nothing to disclose.
Dietrich, Jennifer, MD: Dr. Dietrich has nothing to disclose.
DiVasta, Amy, MD, MMSc: Dr. DiVasta has nothing to disclose.
Donaruma-Kwoh, Marcella, MD: Dr. Donaruma-Kwoh has nothing to disclose.
Dowlut-McElroy, Tazim, MD: Dr. Dowlut-McElroy has nothing to disclose.
Dubuc, Elise, MD: Dr. Dubuc has nothing to disclose.
Ehrman, Wendi, MD: Dr. Ehrman has received honorarium from Managed Health Services.
Ernst, Susan, MD: Dr. Ernst has nothing to disclose.
Evans, Yolanda, MD MPH: Dr. Evans has received honorarium from Within Reach.
Figuroa, T. E., MD, FAAP, FACS: Dr. Figuroa has nothing to disclose.
Fleming, Nathalie, MD: Dr. Fleming has nothing to disclose.
Francis, Jenny, MD: Dr. Francis has nothing to disclose.
Francis, Jessica, MD: Dr. Francis has nothing to disclose.
Gomez-Lobo, Veronica, MD: Dr. Gomez-Lobo has nothing to disclose.
Grace, Estherann, MD: Dr. Grace has nothing to disclose.
Green, Lisa, MD, MPH: Dr. Green has nothing to disclose.
Grinenko, Dawn, MD: Dr. Grinenko has received salary from Four Seasons Hospice and Weatherby Locums.
Hall, Tanya, MD: Dr. Hall has nothing to disclose.
Harrison, Megan, MD: Dr. Harrison has nothing to disclose.
Helton-Skally, Kathy, MD: Dr. Helton-Skally has nothing to disclose.
Hewitt, Geri D., MD: Dr. Hewitt has nothing to disclose.
Holland-Hall, Cynthia, MD, MPH: Dr. Holland-Hall has nothing to disclose.
Hoopes, Andrea, MD: Dr. Hoopes has nothing to disclose.
Hubner, Nicole, MD, FRCSC: Dr. Hubner has nothing to disclose.
Huguelet, Patricia, MD: Dr. Huguelet has nothing to disclose.
Iglesias, Elba, MD: Dr. Iglesias has nothing to disclose.
Jamieson, Mary Anne, MD: Dr. Jamieson has nothing to disclose.
Jarin, Jason, MD: Dr. Jarin has received funding from District of Columbia Developmental Center for AIDS Research (DC D-CFAR).

Kitaka, Sabrina, MD: Dr. Kitaka has nothing to disclose.

Kives, Sari, MD: Dr. Kives has received honorarium from Bayer and Warner Chilcott.

Kottke, Melissa, MD: Dr. Kottke has received consulting fees from Merck.

Lara-Torre, Eduardo, MD: Dr. Lara-Torre has nothing to disclose.

Lau, May, MD, MPH: Dr. Lau has received funding: Program for the Development of Model Community Health Initiatives in Dallas.

Lawrence, Shawn, PhD, LCSW: Dr. Lawrence has nothing to disclose.

Loveless, Meredith, MD: Dr. Loveless has nothing to disclose.

Maddox, Amber: Dr. Maddox has nothing to disclose.

Mama, Saifuddin, MD, MPH, FACS: Dr. Mama has nothing to disclose.

Manski, Ruth, BA: Dr. Manski has nothing to disclose.

McNichols, Colleen, DO: Dr. McNichols has nothing to disclose.

Medley, Tia C., MS, CNS, APNP: Dr. Medley has nothing to disclose.

Merritt, Diane, MD: Dr. Merritt has received research support from AbbiePharm.

Metzl, Jordan, MD: Dr. Metzl has nothing to disclose.

Middleman, Amy, MD, MSED, MPH: Dr. Middleman has received consulting fees from Up to Date.

Miller, Elizabeth, MD, PhD: Dr. Miller has nothing to disclose.

Moon, Lisa, MD: Dr. Moon has nothing to disclose.

Murray, Pamela J., MD, MPH: Dr. Murray has nothing to disclose.

Parks, Laura, MD: Dr. Parks has received teaching fees from Hologic.

Pfeffer, Betsy, MD: Dr. Pfeffer has nothing to disclose.

Pitts, Sarah, MD: Dr. Pitts has nothing to disclose.

Quint, Elizabeth, MD: Dr. Quint has nothing to disclose.

Rackow, Beth, MD: Dr. Rackow has received consulting fees from Glaxo Smith Kline.

Raju, Rubin, MD: Dr. Raju has nothing to disclose.

Reed, Beverly, MD: Dr. Reed has nothing to disclose.

Rehm, Jennifer, MD: Dr. Rehm has nothing to disclose.

Rome, Ellen, MD, MPH: Dr. Rome serves on an Advisory Board for Merck.

Sandberg, David, MD: Dr. Sandberg has nothing to disclose.

Sanfilippo, Joseph, MD, MBA: Dr. Sanfilippo has nothing to disclose.

Sass, Amy, MD, MPH: Dr. Sass has nothing to disclose.

Shah, Brandi, MD, MPH: Dr. Shah has nothing to disclose.

Simms-Cendan, Judith, MD: Dr. Simms-Cendan has nothing to disclose.

Smith, Kristin: Ms. Smith has nothing to disclose.

Smith, Brigid: Ms. Smith has nothing to disclose.

Sokkary, Nancy, MD: Dr. Sokkary has nothing to disclose.

Spitzer, Rachel, MD, MPH, FRCS: Dr. Spitzer has nothing to disclose.

Squires Stambough, Kathryn, MD: Dr. Squires-Stambough has nothing to disclose.

Strickland, Julie, MD, MPH: Dr. Strickland has received honoraria from Merck.

Sucato, Gina, MD: Dr. Sucato has nothing to disclose.

Thomas, Phaedra, BSN: Dr. Thomas has nothing to disclose.

Toulany, Alene, MD, FRCPC: Dr. Toulany has nothing to disclose.

Tyson, Nichole, MD: Dr. Tyson has nothing to disclose.

Voorhees, Dale, MA: Dr. Voorhees has nothing to disclose.

Williams, Rebekah, MD, MS: Dr. Williams has nothing to disclose.

Wood, Paul, MD, FRCOG: Dr. Wood has nothing to disclose.

Woods, Jennifer, MD: Dr. Woods has nothing to disclose.

Woodruff, Teresa, MD: Dr. Woodruff has nothing to disclose.
